

The background features several network graphs. In the top left, a black branching tree-like structure. In the top center, a sparse network with a central node and several smaller clusters. In the top right, a dense, circular network of red nodes. In the middle left, a network with several large red nodes and many smaller nodes connected to them. In the middle right, a network with nodes colored in various colors (blue, green, purple, red) and connected by thin lines. In the bottom left, a very dense, circular network of red nodes. In the bottom right, a network with nodes colored in various colors (red, blue, green, purple) and connected by thin lines.
